Post.php

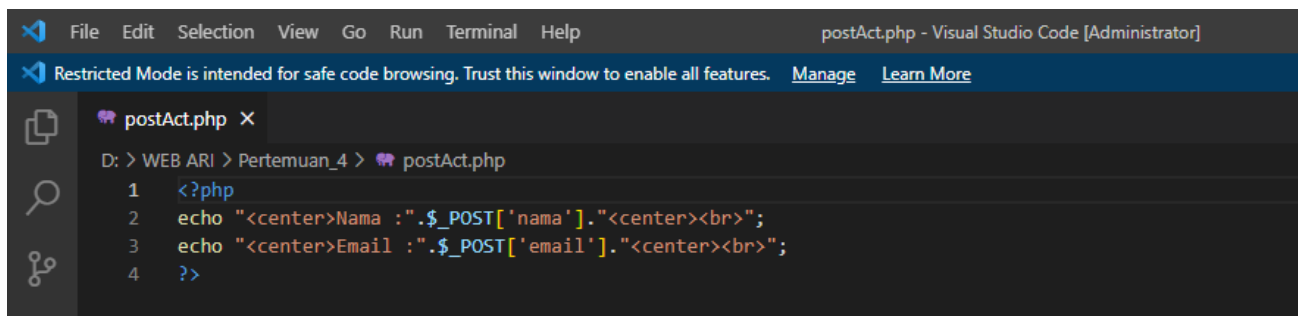

The screenshot shows the Visual Studio Code editor with the file `post.php` open. The code is an HTML form that uses the POST method to submit data to `postAct.php`. The form contains two text input fields for 'Nama' and 'E-Mail', a 'Login' button, and a 'Reset' button. Below the code editor, a browser window displays the rendered form at the local path `localhost/Pertemuan_4/post.php`. The browser shows the form with the values 'Arie Suryawijaya' and 'biodata@gmail.com' entered in the respective fields.
